Dear Sir

We Sealant Enterprises are committed to provide labour, time and cost effective solutions to different engineering domains like Automotive, Food and Pharmaceutical industry, Chemical and fertilizer industry, Machine tool industry and many more....

We introduce ourselves as one of the best designer and manufacturer of Quick release coupling for pressure/Leakage testing of components. These couplings increase the testing efficiency many folds.

We have supplied substitute for imported QRC for pressure leakage testing to many of our customers all over INDIA.

We also manufacture extensive range of standard quick release couplings.

We manufacture Patented Alternative for CNC Soft Jaws. This alternative can save upto Rs.30000/- per machine per year in setting time and can reduce 90% inventory cost of jaws.

We manufacture limiter valve (import substitute) to ZF steering gears for last 23 years. We are one of their best suppliers.

We design, manufacture and supply special purpose machines to HEMRL (DRDO).

We have small fraction of our business in export also.

Please let us know if you have any requirement of Import substitute valves, Quick Release couplings. We will offer our services from designing to dispatch as per your requirement.

SHASHANK W. GADRE
